Brent Donaldson

Senior Editor, *Additive Manufacturing* and
Modern Machine Shop

BIO

Brent Donaldson is senior editor for *Additive Manufacturing Magazine* and *Modern Machine Shop*, specializing in long-form feature articles related to machining and all-things-AM and industrial 3D printing.

Before joining Gardner, Brent was editor-in-chief of *Northern Kentucky University Magazine* — at the same university from which he received his journalism degree in 2005. Brent previously served as associate editor for *Cincinnati Magazine*, and is the recipient of two Ohio Excellence in Journalism awards for feature news writing, Cincinnati Society of Professional Journalists awards, and more than 40 individual awards from the Council for Advancement and Support of Education for writing and editorial.

QUOTE (MANUFACTURING):

“While tough times lie ahead for many small manufacturers in the near-term, the opportunity for a sustainable domestic manufacturing surge has perhaps never been greater.”
