

Eduardo Tovar

Editorial Director
Modern Machine Shop México

BIO

Eduardo Tovar is the Editorial Director of *Modern Machine Shop México*. He has more than 25 years of experience in the manufacturing and metalworking industries, where he has had the opportunity to meet and write about applications in the most important industries in Mexico. Eduardo's editorial activities are carried out throughout Mexico, in addition to the United States, Europe and Asia, where he covers the most important events in the metal and machine tool manufacturing sectors. Eduardo has a degree in Social Communication and Journalism. During his 25 years of industry coverage he has attended the most important seminars and events in the world of manufacturing and technologies related to the metalworking sector. He is the adviser and creator of renowned industrial events in Mexico:

- [Aerospace Top Conference](#), dedicated to the aerospace industry.
- [Meximold](#), exhibition and conference for moldmakers.
- [FITMA](#), the International Technology and Manufacturing Show for Latin America.
